

Online CDM Awareness Training Course

(Accredited by the International Institute of Risk and Safety Management and IOSH)

The Construction Design and Management Regulations cover the management of health, safety and welfare when carrying out construction projects. Whatever your role in the construction industry these regulations are there to improve your health and safety. They are intended to ensure that projects are planned and run effectively and safely right from the start.

This awareness course covers the core concepts of the regulations and details the various roles that are required for a construction project along with the key documents that need to be produced. It starts with an introduction to CDM, then covers some of the parameters that need to be checked when a project is being planned. It finishes by detailing a number of example projects that illustrate how the regulations can be applied.

Course structure:

Course	Module Number	Module Name
CDM Awareness	1	Module One: Legislation
CDM Awareness	2	Module Two: CDM Application and Notification
CDM Awareness	3	Module Three: Duty Holders and Documents
CDM Awareness	4	Module Four: Duties and Legal Documents
CDM Awareness	5	Module Five: Example Projects and Summary
